

Melbourne Main Sewer Replacement

Information Bulletin

12 September 2008

Dear Resident or Business Owner,

Out of hours delivery

Further to our letter of 8 September 2008, John Holland would like to advise of an out-of-hours delivery to the Melbourne Main Sewer Replacement project site at Fennell Reserve.

The piling rig, which will be used to construct the Fennell Reserve shaft, is due to be delivered to site on Wednesday, 17 September 2008.

Due to VicRoads requirements, it will be necessary to transport and deliver the piling rig outside of standard working hours, between the hours of **4am and 5am**, on **Wednesday, 17 September 2008**.

The truck transporting the rig will travel to the Fennell Reserve site via Normanby Road and Boundary Street. The rig will not be unloaded when it arrives – unloading will occur during the standard working hours, 7am to 6pm.

Piling works will commence on 17 September 2008 and will take approximately five weeks to complete. Works will be undertaken during the standard hours of Monday to Saturday, 7am to 6pm with no truck movements taking place after 1pm on Saturday.

All efforts will be made to minimise noise during delivery of the piling rig, however some noise may be experienced.

John Holland thanks you for your patience and understanding during this essential delivery.

If you have any queries or would like more information, please do not hesitate to contact us on the 24 hour toll free community line or via email.

Yours Sincerely,

Melanie Beveridge
