

Alexandra Parade Drain Deck Replacement project

Night works in May

Night works will be required during May on the Alexandra Parade Drain Deck Replacement project to prepare for the upgrade of the drain decks under Smith Street/ Alexandra Parade intersection at the same time as Yarra Trams works scheduled in early June.

Work will not be undertaken during wet weather and night work will only take place for work that is essential to prepare for the Smith Street drain deck upgrade.

You will notice concrete pouring, excavation and crane operation during this period. Main works will be located between Smith Street and Wellington Street.

Noise: an increase in noise is likely to be experienced due to our works. When possible, noisier work will be undertaken during day works.

Light: if additional lighting is required it will be directed away from households.

Traffic conditions: traffic conditions will not change due to works taking place.

We apologise for the inconvenience and thank you for your understanding while we undertake these important works.

Smith Street 24/7 works

From 10pm on Friday 1 June to 5am on Tuesday 4 June we will work 24/7 to replace the drain deck under Smith Street within the Alexandra Parade intersection. We encourage you to allow extra time when travelling in the area. These dates have been chosen to coincide with works being done by Yarra Trams along Queens Parade to minimise the impact to the community. For further information on Yarra Trams work visit yarratrams.com.au.

Keep up to date with what's happening
