

**DSCM Legend**

- DSS Boundary
- DS Strategy Boundary
- DSCM Property
- Stage (Allocated)
- Stage (Works in Progress)
- Stage (Finalised)
- Nodes
- Bio-Retention Swale

- Channel
- Cleanout works
- Culvert
- Grassed Swale
- Low flow pipe with Channel
- Overland flow path
- Pipeline
- Soft Engineering

- Bio-Retention Basin
- Buffer Strip
- Inlet/Outlet Structure
- Junction Pit
- Litter trap
- Retarding Basin
- Sediment trap
- Wetland

**As Constructed Legend**

- Channel
- Natural Waterway
- Sewer Main
- Underground Drain
- Water Main

- Flood Extents
- Lake
- Retarding Basin
- Sediment Trap
- Wetland

**Plan Date: April 2017**

Melbourne Water is providing this information and is not to be used as the basis of future design and aspects that the appointed engineering consultant will perform their own calculations as part of requirements for the development. Please note that schemes developed and Melbourne Water receives additional information, the conceptual/indicative advice you have been provided as part of the feasibility report may require or exceed. Under the CA process it is the responsibility of the consultant to ensure that Melbourne Water's liability advice is correct and to verify that all information obtained provided to Melbourne Water for acceptance is correct having completed their own detailed assessment analysis.
