(-) not previously reported on as an individual figure in the SFMP annual report.

Note 1: No all-year licences metered as they are inactive.

Note 2: Note, this consumption does not allow for catchment flows and other inputs, i.e. bores and/or roof areas, etc.

Note 3: For 2013-14 there are three additional stormwater licences totalling 83ML issued in the Plenty catchment. This allocation is considered separately to the SFMP and issued in accordance with the government and MW policies on stormwater licences in urban areas.

Note 4: 1 additional winter-fill licence of 5ML has been added in 2013-14. This licence previously omitted due to an incorrect catchment being recorded
