

2018 WATER OUTLOOK FOR MELBOURNE

Melburnians are continuing to practice water saving efforts

Let's continue to work towards Target 155

Melbourne's many water sources, including desalination, ensure we have water for the coming years

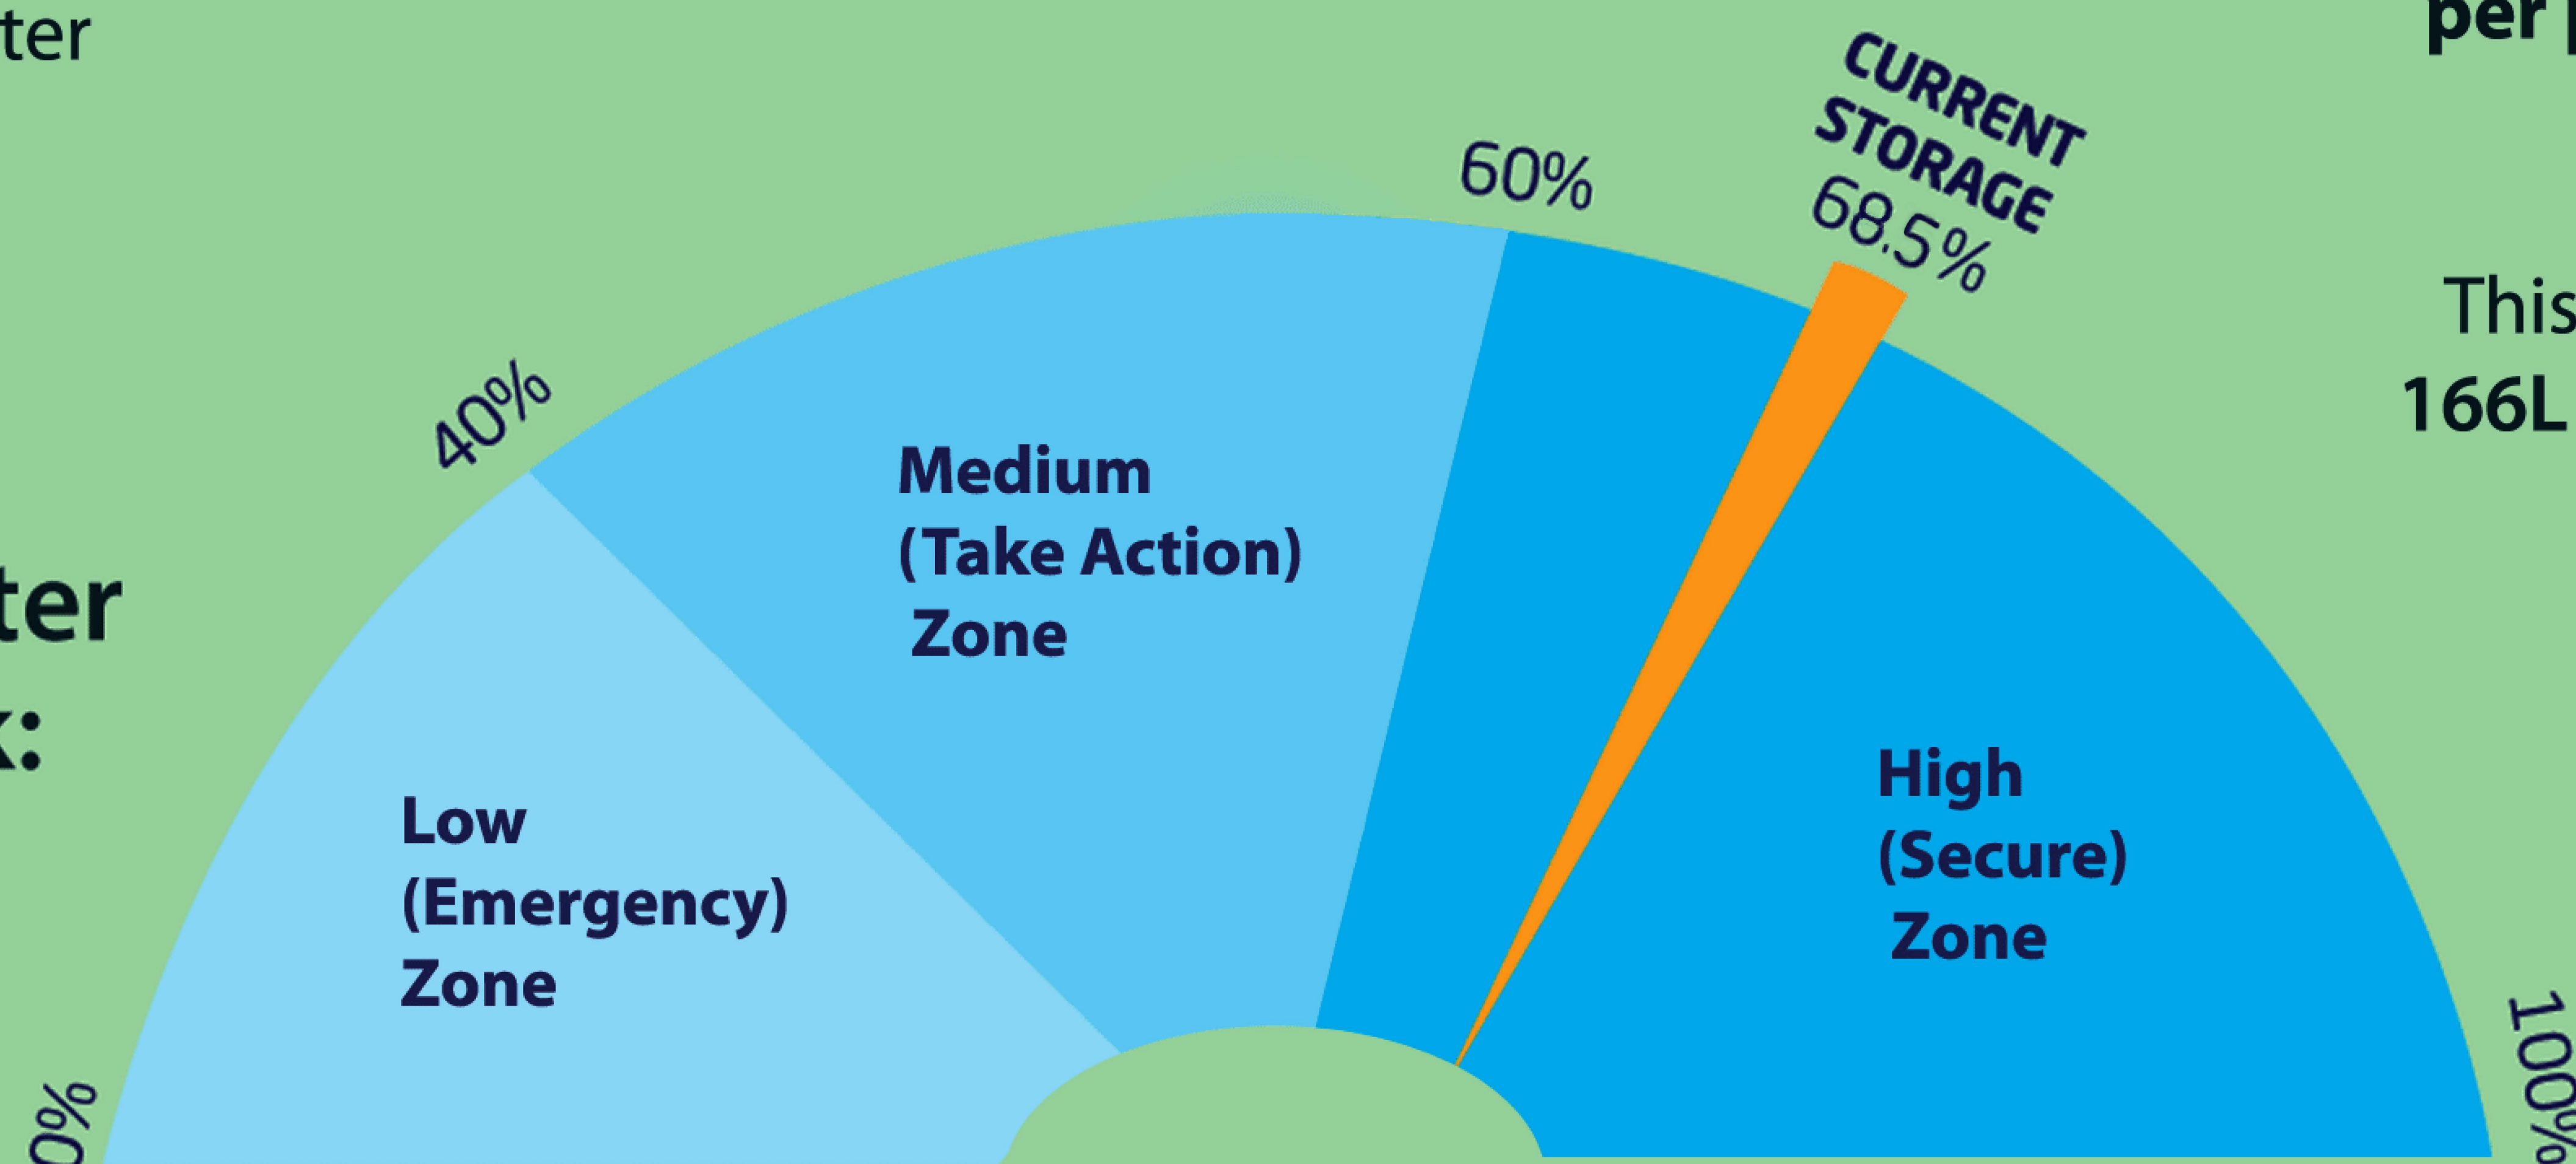

A warmer and slightly wetter summer ahead

Remember to follow the Permanent Water Use Rules

In 2016/17 Melbourne Residents used **161L** per person per day

This is compared to 166L per person per day in 2015/16

Our water outlook:

December 2017

WORKING TOWARDS TARGET **155**

Remembering that we all need to keep using water wisely.
