

Living Rivers Funded Projects February 2017 Round

Council	Title	Description
Hobsons Bay Council	LR4a02 PA BURNS Foreshore Remediation Program	The objective is to incorporate WSUD principles into the redevelopment of a high profile recreation area adjacent to Port Phillip Bay.
Melton City Council	LR4a05 Development of an Integrated Water Management Plan	Develop an Integrated Water Management Plan to ensure water resources are resilient to urban development, population growth and climate change.
Whitehorse City Council	LR4a07 Laurel Grove North WSUD	Detailed design of a vegetated swale and ephemeral wetland downstream of a road Improvement Scheme.
City of Casey	LR4a09 Future proofing Casey's active and liveable recreational reserves through stormwater harvesting	Update the 2009 plan to deliver strategically prioritized water harvesting infrastructure projects that delivers multiple social and environmental benefits.
Moonee Valley City Council	LR4a12 AJ Davis Reserve - WSUD Functional Design	A functional design will be prepared for the AJ Davis Reserve wetland. The design will be included in the AJ Davis Reserve Master Plan.

Cardinia Council	LR4a13 Integrated Water Officer	An Integrated Water Officer will be employed for an additional 3 days per week to help deliver the goals set out in the IWM Plan.
Moonee Valley City Council	LR4a14 Rosehill Park Wetland - Detailed Design	Detailed design documentation will be prepared for the Rosehill Park wetland building on the concept included in the Rosehill Park Master Plan endorsed in 2016.
City of Stonnington	LR4a15 Future Investments in WSUD Infrastructure - Smart Investments for Maximum Benefits	This project will develop a manual for blue green infrastructure supporting delivery of combined WSUD and urban greening projects and support implementation of trial projects.
City of Greater Dandenong	LR4a17 Integrating development WSUD measures into the building and planning approvals processes.	This project is to undertake process mapping, staff training and the implementation of the Sustainable Stormwater Strategy requirements in the City of Greater Dandenong's planning system.
City of Casey	LR4a18 Sustainable Water Management Officer	Joint funding will employ a dedicated officer to build capacity on river health, WSUD & implementation of Integrated Water Management across the City of Casey.
City of Boroondara	LR4a20 Chandler Park Wetlands - project implementation	Construct Chandler Park Wetlands; treating a 120 ha catchment, improving the health of the Yarra and bay, enhancing wildlife habitat and creating recreational/learning opportunities.
Yarra Ranges Council	LR4a21 Yarra Ranges WSUD Officer	Extend the WSUD Officer role for a further 12 months in order to continue embedding WSUD principles and design capabilities within Yarra Ranges Council.

Yarra Ranges Council	LR4a22 Sassafras Stormwater Detention System	This application is to complete the final stage of a major environmental restoration project in Sassafras: construction of an underground stormwater detention system.
Mornington Peninsula Shire	LR4a23 The Avenue Precinct, Flinders - Flood Mitigation Project	Upgrade drainage assets for flood mitigation and improvement of water quality of surface run-off through the implementation of WSUD.
Brimbank City Council	LR4a24 Game On - Stormwater Wins for Community Sportsgrounds	This is a partnership project for concept & detailed design of a stormwater system on public and school sportsgrounds - a first for Brimbank.
City of Greater Geelong	LR4a25 Priority WSUD Projects Masterplan	Partner with E2D to complete a prioritised masterplan for capital WSUD projects for Geelong, which reduce the impact of stormwater runoff.
Brimbank City Council	LR4a26 WSUD/IWCM scoping and prioritisation project - Brimbank City Council	Analysis & prioritisation of stormwater catchments in order to plan future WSUD capital projects.
Nillumbik Shire Council	LR4a27 Integrated water management for Nillumbik's Operations Centre	Develop an integrated water management plan for the Nillumbik Council Operations Centre (OC) to maximise treatment of waste and storm water and reuse on site.
Moreland City Council	LR4a29 Moreland Stormwater Harvesting 2017/18 - delivering an innovative stormwater harvesting partnership	Concept designs, modelling and cost benefit assessments to evaluate the options for stormwater harvesting systems in the municipality.

City of Greater Geelong	LR4a30 WSUD Asset Maintenance - System Development	Refine CoGG's existing WSUD maintenance systems to ensure that there are well trained inspection and maintenance staff supported by a comprehensive administrative system.
City of Glen Eira	LR4a32 Stormwater Community Education Program	Deliver a community education program to increase understanding of stormwater issues and practical ways the community can help to improve stormwater management in the region.
Yarra Ranges Council	LR4a35 Addition of WSUD treatment to two car park construction projects: Morrison Reserve Sporting Fields (Mt Evelyn) and Millgrove Recreation Reserve (Millgrove)	This application is to integrate Water Sensitive Urban Design features to the proposed car parks in Morrison Reserve, Mt Evelyn, and Millgrove Recreation Reserve.
Banyule City Council	LR4a36 Making Gresswell Great Again - A stormwater management feasibility study and concept design	Develop a stormwater management feasibility study & concept design for Gresswell Forest Nature Conservation Reserve (Salt Creek headwaters) to mitigate pollution and flow impacts.
Bayside City Council	LR4a39 Integrated Water Management Opportunities Assessment	Conduct an Integrated Water Management Opportunities Assessment to inform the implementation of a revised Integrated Water Management Plan.
