Aboriginal cultural heritage

Aboriginal places and objects can be found all over Victoria and are often near rivers, lakes, swamps and the coast. Aboriginal places and objects can also be found on private property. Aboriginal Affairs Victoria (AAV) works in partnership with landowners, land managers and Aboriginal communities to record, protect and manage these places and objects.

The Aboriginal Heritage Act 2006 requires that the discovery of Aboriginal cultural heritage places or objects on any public or private land in Victoria be reported to Aboriginal Affairs Victoria.

Landowners who suspect a discovery of cultural heritage on their land can find out what to do by visiting the webpage www.dpcd.vic.gov.au/indigenous/aboriginal-cultural-heritage/information-for-landowners.

The relevant Registered Aboriginal Parties must be contacted prior to the commencement of works on crown land to determine the existence of any aboriginal place objects and archaeological sites. For more information on the relevant contact please visit www.dpcd.vic.gov.au/indigenous/aboriginal-cultural-heritage/registered-aboriginal-parties.

Crown land and other parties land

In many places throughout Victoria, waterways and drains are located within crown reserves.

These pieces of land are normally managed by the Department of Environment and Primary Industries but may be occupied or leased by other parties. In cases where the Applicant proposes to occupy or cross crown land with their works or pipelines then the Applicant must provide demonstrated evidence that they have, or will obtain, the relevant permission from the land manager.

In the case of crown land a Water Frontage or Crown Land Occupation Licence may be required from the Department of Environment and Primary Industries.

Contact:
Senior Land Use Planner,
Crown Land Management - Port Phillip Region,
P O Box 500,
East Melbourne VIC 8002

or

Telephone: 9637 8000.

Similarly applicants must be able to demonstrate the relevant consent of any third party or agency on whose land the pump or associated works are, or will be, located.
